

CLEANING THE AIR IN YOUR WORLD.

A reputation of quality
for nearly 50 years.

Environmental Filter is a leading aftermarket supplier of air filtration products with nearly 50 years of application and design experience.

We manufacture a complete line of Cellulose, Polyester, Synthetic, Coated and Non-Woven Cartridges to fit most cartridge collectors in the marketplace today. Each type of cartridge is designed with a specific application in mind.

We provide full sales, engineering, technical support and custom design filters for specialized equipment used in dust collection applications for a wide variety of environments.

Let us help you,
